Tarset Archive Group Bastle Project: Reiver Landscapes, Reiver Homes

Tarset Archive Group (TAG) is a community group which was set up to study and record various aspects of Tarset's archaeology, geology, history and biodiversity. In 2006, it published its own atlas of Tarset's archaeological and historical sites (many of which had not previously been recorded) and it is gradually building up a digital database. For the last two years, it has been taking a close look at Tarset's bastles.

The bastle weekend is intended for anyone interested

in this important and fascinating part of our built heritage. We hope that there will be something to appeal to all levels of interest and we look forward to welcoming you to this rich but well-hidden valley in the Northumberland National Park.

A list of some of our local bed and breakfast and self-catering accommodation providers is enclosed and a detailed event programme will be sent to you on booking.

SATURDAY 17th OCTOBER 2009 (10.30am) Public Forum
